

## **The Church of God in Christ Statement In Response To the Missouri NAACP Travel Advisory**

Considering the recent travel advisory from the Missouri NAACP State Conference, with endorsement from the national NAACP organization, in reference to Senate Bill 43, the Church of God in Christ (COGIC) would like to issue the following statement:

The Church of God in Christ has an extensive, distinguished history of supporting the equal and fair treatment of all human beings. The Church of God in Christ stands firmly against the discrimination of any individual based on race, creed or color.

As the largest and one of the oldest Pentecostal denominations in the United States, we will continue our efforts to fight for equal justice,

We will have no further comment on this matter at this time.
