Course Schedule

Course Required Text and
Materials

COURSE DESCRIPTION:

An innovation lab is a dedicated space within an organization where employees can come together to brainstorm, collaborate, and prototype new ideas and solutions. Innovation labs often have a focus on experimentation, creativity, and rapid prototyping. They are often equipped with tools and resources that facilitate the innovation process.

COURSE OBJECTIVES:

Innovation labs can be a valuable resource for organizations looking to encourage and facilitate innovation within their teams. They provide a dedicated space for employees to focus on innovation and to work on projects that may not fit within the scope of their day-to-day responsibilities. Innovation labs can also serve as a hub for cross-functional collaboration, bringing together employees from different departments or areas of the organization to work on projects together. Overall, innovation labs are designed to create an environment that is conducive to creativity, experimentation, and the generation of new ideas. By providing a dedicated space and resources for innovation, organizations can foster a culture of continuous improvement and help drive progress and success.

COURSE SCHEDULE:

All assignments are to be completed and submitted digitally through the provided platforms.

Applied Education Innovation Lab

Introduction
Non-Competitive Ministries
Competitive Ministries
Working Session
Scaling: Jurisdiction
