To Whom It May Concern:

As regards Bishop Charles Blake, God's choice to lead the Church of God in Christ at this time in the Church's history, Bishop Blake is absolutely walking in his destiny, and the destiny of the church. I personally asked God who His choice was to lead the church a number of years before we elected Bishop Blake, and the answer came back, CHARLES BLAKE. I don't believe God is sending any other message at this time.

Bishop Blake is doing exactly what the church needs at this time!

A few months ago, again, God spoke to me and said, Bishop Blake will live and his health will be fine because he's doing his best for the church.

Thank God for choosing such a great man to lead us into the 21st Century. The church is doing well because of his leadership and vision. He is totally unselfish and gives of himself, along with his family and local church, for the betterment of the Church of God in Christ, and at this time, the leadership couldn't be any better. He is God's choice! Anyone who tampers with God's choice is not wise and could be skating on thin ice!

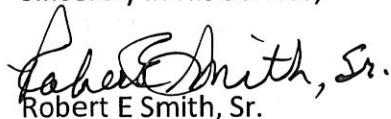

Since Bishop Blake is anointed by God to lead The Church of God in Christ at this time, it would be wise not to touch God's anointed, and to do his prophet no harm!

There is no doubt that heaven is on his side and he has God's total support to lead the church and to continue impacting the world, including "Africa's Children," for good. He is certainly one of the greatest men who ever lived on the face of the earth!

May God continue to bless this **ONE OF A KIND** leader, who is totally dedicated to the work of the Lord, and the betterment of His people all over the world!

My prayer is that Bishop Charles Blake will live to give many more years of productive service to the Kingdom of God by serving God's people. God has brought him to the kingdom for such a time as this!

Sincerely in His Service,

Robert E Smith, Sr.
